**TERMS OF REFERENCE FOR
PROCUREMENT OF MATERIALS FOR THE REPAIR AND REFURBISHMENT (LAST
QUARTER) OF FACILITIES/BUILDINGS IN PSHS-CALABARZON REGION CAMPUS**

I. Background

The Philippine Science High School CALABARZON Region Campus (PSHS-CALABARZONRC) aims to continuously provide quality service in terms of facilities and equipment and ensure an environment that is safe and conducive to optimum learning of students and safe workplace for its employees.

The General Services Unit (GSU) is tasked to preserve the Campus facilities, equipment and buildings to maintain their excellent condition and functionality at any given time to secure the personnel and scholars and avoid any incidents that may arise due to malfunctions and defects. The Unit is also in charge of rectification of any inspected and reported damage or defects of the facilities in the Campus and to retain the aesthetic design of the buildings, notwithstanding the goal to keep the costs at low.

II. Rationale

Maintaining and repairing the existing physical resources reduce the need for new replacements. Keeping large repair projects to a minimum, which is the goal of any repair and maintenance service, will also reduce construction and other waste. Nowadays buildings in our campus are occupied and used daily by the teachers, staff and scholars, thereby resulting to continual depletion and deterioration due to normal wear and tear and some unintended damages while being utilized. These, in turn, require several repair and maintenance works every end of the school year to keep the facilities functional and in good condition for utilization in the next school year.

The repair and maintenance work that have to be performed while the students and teachers are on academic break entail procurement of supplies and materials that will be needed by the maintenance personnel.

III. Scope of Work and Job Specifications

The qualified supplier/s must be able to provide the materials on a per lot basis for repair and refurbishment of facilities/buildings with the following specifications:
